## "The Long and Winding Road" - The Beatles

During our years at MHS, it may seem like we are on a neverending highway with no destination in sight. You must always keep in mind to enjoy each performance and meet all the fans along the way. It is the fans you meet that truly matter. Medfield High School is full of memorable people who are there with you for every experience of the journey. From the school plays to the sporting events and all the classes, the friends you keep are always there to cheer you on. These wonderful experiences will stay with you forever. So sit back, relax and enjoy the ride!

"Let's See How Far We've Come..." -Matchbox Twenty

2011. Look at where we are now: our final performance. As we step on the stage, let's take once last look into the crowd we've come to know and love. Middle school seems like yesterday, and the days at Dale Street are only a few years ago. Now it's time to part ways. Can you believe the obstacles we've overcome...the time we've spent together...the memories we've made? It's time for our solo performances, but first, let's all take a bow. "Well I believe it's all coming to an end...let's see how far we've come."

## "These are the Good Ole Days" -James Otto

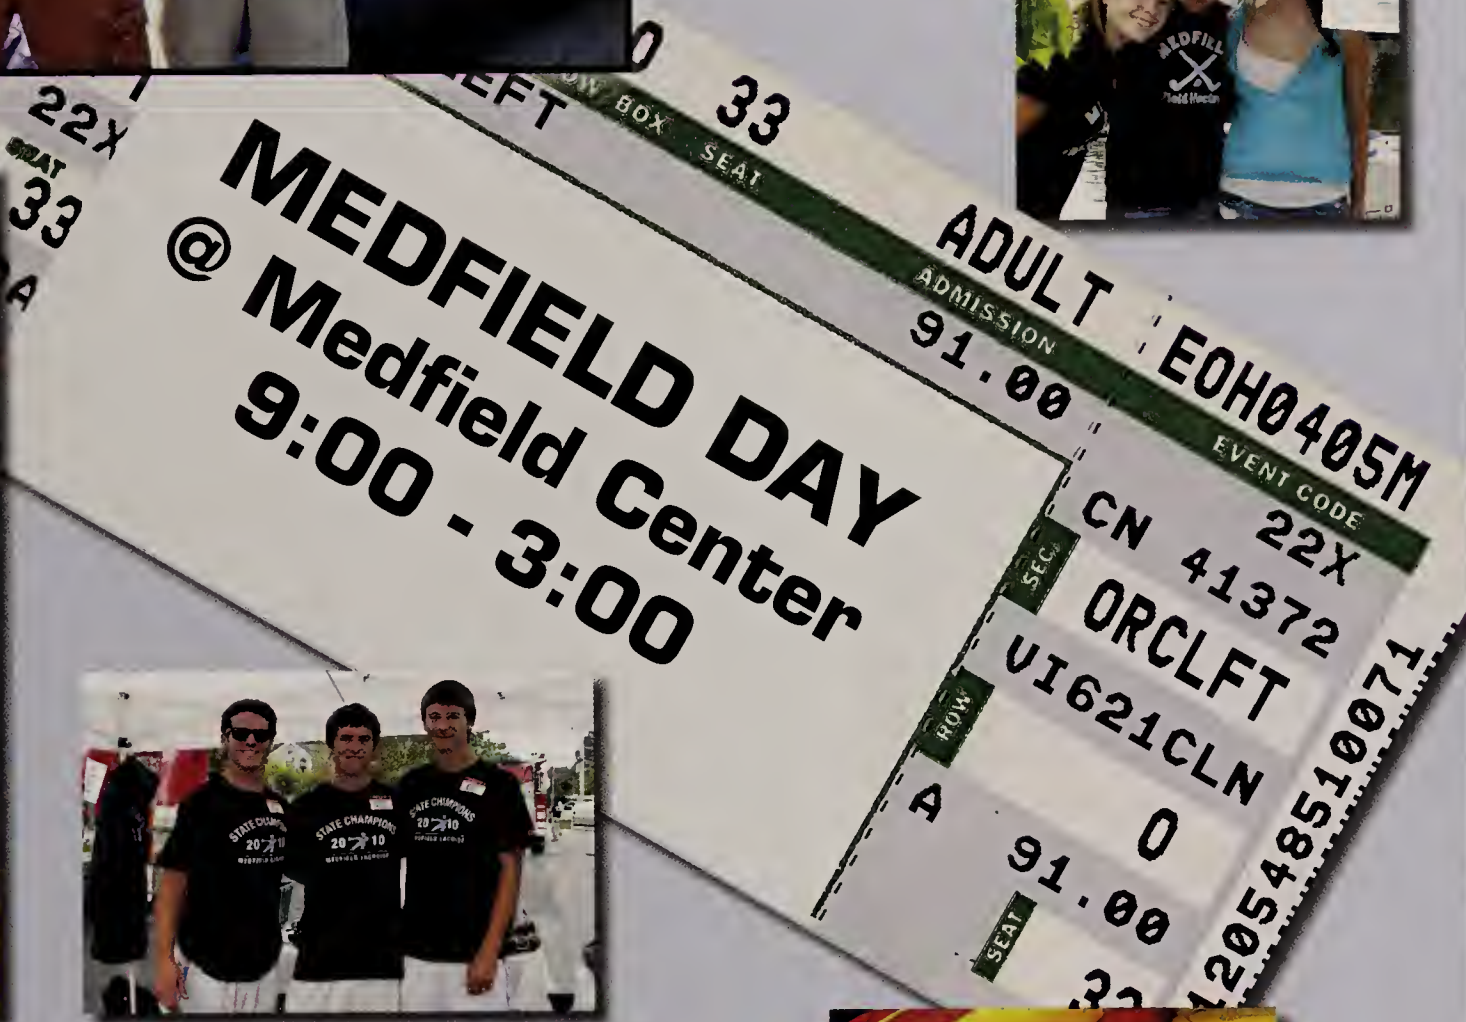

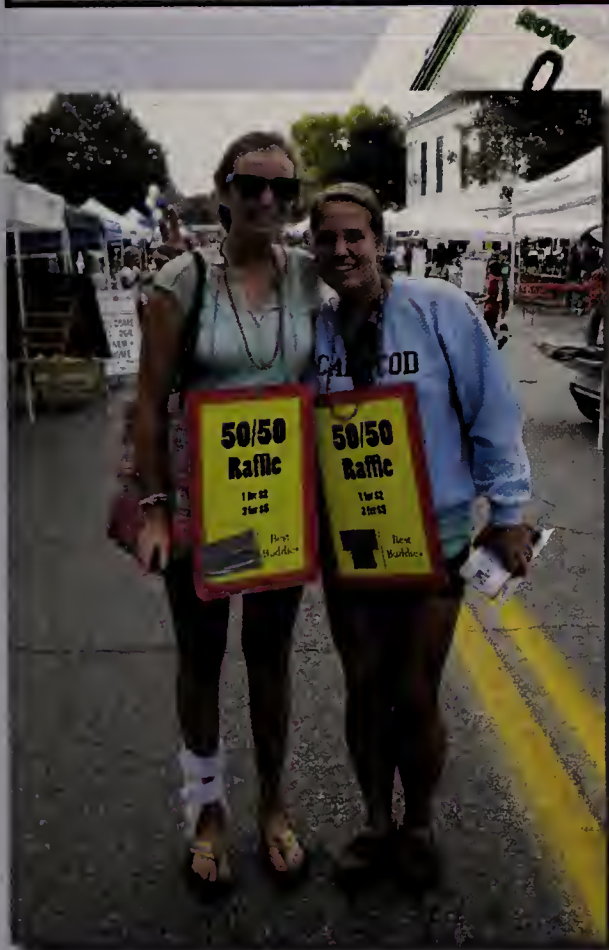

Here at MHS, all the students look forward to the many exciting gigs and stops on their tour. The first venue is Hospital Hill, where bands impress all of the fans with their musical talents at the annual Fall Fest. One of the most popular events for the rock stars here at MHS lasts for five days during Spirit Week. Each day the fans show their overwhelming support with crazy, unpredictable outfits as they show off their school spirit. After an exhausting week, students kick back and flaunt their neon at the Homecoming Dance while they groove to some tunes. No matter how hectic the schedule, we always have a good time. So grab an open seat and join us on the adventure!

# "Takin' Care of Business"

-Backman-Turner Overdrive

On tour your bandmates become your family. You create memories and form a bond that will last long after the stage lights dim. From records, to 8 tracks, to CDs and iPods, the music world is always changing. Yet even with this evolution, there will always be the classic songs that inspire us, with tunes that will stay in our hearts forever. Years from now, when we are the veteran musicians we will remember the standing ovations and the people who helped us get there. The pit crew and producers believe in us unconditionally, and help us to learn everything necessary to reach superstardom and more.

## FAREWELL TO: MR. PAUL BRUEMMER

Mr. Paul Bruemmer has thoroughly enjoyed teaching for the past forty-one years. He has especially loved the past ten years here at Medfield High School. Being a teacher has always been Mr. Bruemmer's dream, and he is very appreciative of his experiences. He says that the best part of his job is the students. He values their positive reactions, their responses, their interests and especially admires their energy. In addition to French, Mr. Bruemmer has taught German and has shared his teaching skills in Minneapolis, Minnesota and Manitowoc, Wisconsin.

Mr. Bruemmer has always been admired by his students and his colleagues. Mrs. Goodrow-Trach explains: "Paul is one of the finest. Ask any of his colleagues (they're ALL his favorites) or any of his students. When I look across the hallway I see his fine French scholars laughing in unison or sitting on the edges of their seats awaiting his very, next, word. It's difficult to sum up his great character, professionalism and attitude. He is an inspiration. I'll greatly miss my travel companion and francophone teammate. He is the organization to my chaos, the wisdom to my wisecrack, the plan-way-ahead-ness to my last-minute-ness. I'm proud to have been mistakenly called *Mrs. Brummer*."

Sophomore Theresa Philips says: "He is an amazing teacher! He makes class so much fun."

Senior Meara Stack comments: "Mr. Bruemmer is so enthusiastic about French, it makes class tons of fun. I'm really going to miss him!"

Mr. Bruemmer is still undecided over what he will do with all of his free time after retirement. He however is sure that Medfield High School is the best place for him to end his career as a teacher. He adds that he has been privileged to have had some of the nicest and most gifted kids as students.

# O V A T I O N

## AND MRS. JANET McDERMOTT

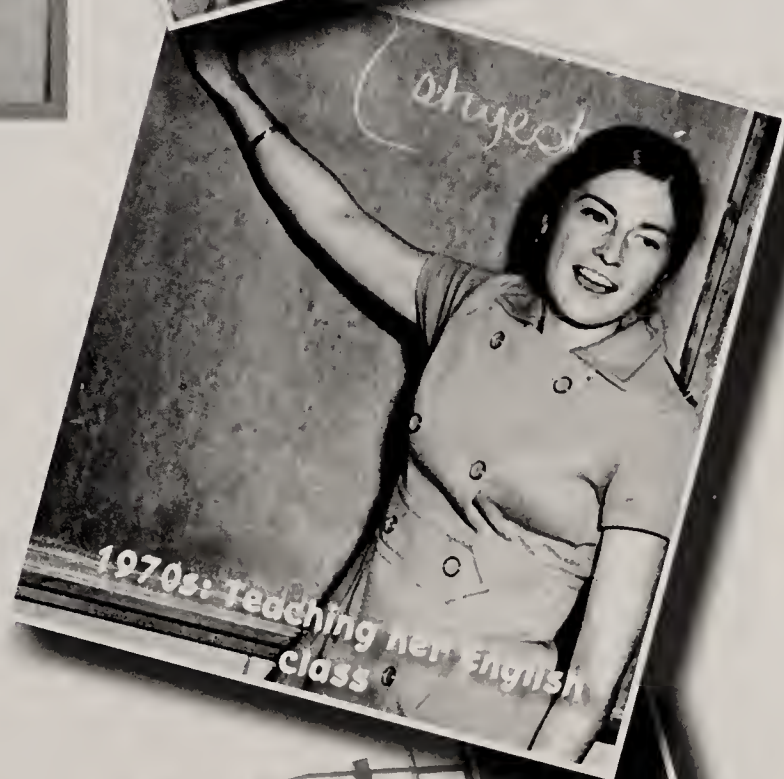

For the past forty years, Mrs. Janet McDermott has been a part of the Medfield School community. Teaching grades eight through twelve, she has moved between the Junior High School and the Senior High School. Through the years, she has taught more than twenty different full-year courses and semester English electives. She has always loved learning, academics, and socialization, making it a natural choice for her to become a teacher. The actual classroom experience is Mrs. McDermott's favorite part of her job. She loves the intellectual, academic, and personal interaction with her students.

Both her students and her colleagues admire Mrs. McDermott's devoted work ethic.

Mrs. Duffy says: "In order to become a certified teacher, your college and this state mandate at least a bajillion courses you need to complete and requirements you need to fulfill. But nowhere is there a course in caring. Frankly, that should be the #1 required course, for good teaching cannot happen without it. To know Janet McDermott is to know a teacher who genuinely cares...about her students...about her content...and about making a difference."

Junior Meghan Keleher exclaims: "Mrs. McDermott truly cares about all her students and always made English fun! I will never forget the vocab games we played for every unit of the infamous orange book! She will be greatly missed."

Mrs. McDermott is going to miss her students and colleagues the most but is looking forward to rest, rejuvenation, and enjoying life in retirement. Although she will no longer be present in school, students will surely remember Mrs. McDermott with respect and fondness.

# The Best is Yet to Come

-Frank Sinatra

On the road to fame everyone has to start at the beginning. First each band must begin its career as an opening act. These artists are every bit as significant as the headliners...only without the experience. They still shine onstage and help to make the show amazing. At MHS, each aspiring rockstar is necessary for our tour. The Underclassmen play a special roll throughout the four year journey. Their experiences are documented and placed beyond this page to show how the opening acts spend time on tour, working and having fun.

## "We are the Champions" - Queen

Being a part of MHS, we strive to succeed not only inside the school walls but also outside on the court and field.. After many hours of grueling practice and hard work, our talented teams take center stage and never fail to come out on top. Even though there are some heartbreaking losses and games that keep us on our toes, we bounce back with noble sportsmanship in hopes that we will do better the next time around. This year was a memorable year for our sports teams, with both State and T/VL titles. Let's keep the Warrior in us, "And we will keep on fighting till the end" - Queen

"Valente Scream Friday. One Clap. Best of Luck Fellas."

# "Closing Time"

-Semisonic

Finally, it's encore time! As the show comes to a close, and the curtain begins to drop, remember each one of our unique, memorable performances. Each stop, although filled with different fans, varying playlists, and changing crews, has been a crucial step in leading each and every artist to his and her ultimate stardom. Take a minute to look back at your memories here at MHS and appreciate where they have taken you. Next year will start another tour, whether here at MHS or off in a new environment. Best of luck! It's your time to shine! Let's see your encore!

*Forever a Member of the Class of 2011...*

## **Lisa Ryan Palermo**

May 27, 1993 - October 26, 2008

---

Her smile always brightened the room, and her sense of humor brought joy to those around her. Although lost so young, we will always cherish each second, minute, and hour we got to spend with Lisa. She wasn't a stranger to anyone and always found the best in each situation. As we walk on graduation day, we know she will be with the Class of 2011, always.

*Forever a Member of the Class of 2011...*

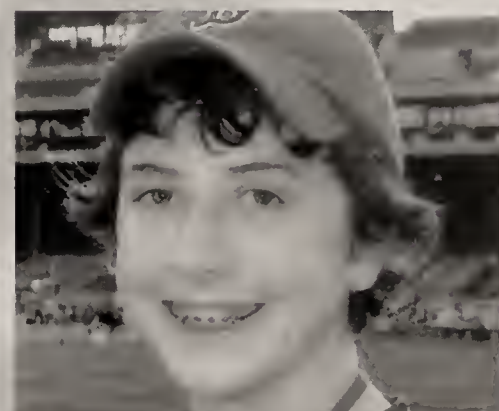

## **William Patrick Judge**

February 3, 1993 - April 24, 2007

---

His happiness was contagious. With his constant smile and positive attitude, William's company was a pleasure. He left Medfield in middle school, but his great friendships kept him closely connected. Sadly, we lost him at a young age, but our memories with him will live on. We will never forget his kindness and generosity. He will always be a member of the Class of 2011.

# THE FINAL

## FAREWELL TO: MS. JUDITH NOBLE

Ms. Judith E. Noble started teaching at Medfield High School 33 years ago as a science teacher and has stayed ever since. She filled her career with both teaching and coaching teams such as volleyball, soccer, softball, basketball, and cheerleading.

Growing up Ms. Noble always had a strong passion for teaching, and in college she found that science was a major that she really enjoyed. Being able to put both her love for science and teaching together created a job she has enjoyed immensely. Through her teaching she hopes that she has "made a positive impression on students' lives."

Some of her favorite memories include presenting at three National Science Conventions as a representative of MHS. She was able to attend each graduation and found them full of memorable moments watching groups of students go off on their own. Ms. Noble has also been able to go to Washington D.C and accept the Blue Ribbon for her school. Yet, some of the best memories are when her students come back and praise her for her teaching, explaining that college has been easier because of how much they learned in high school. "It's good to know you had an impact," explains Ms. Noble.

Her most recent standout memory was attending two state championships on the same day. Being the first coach of the volleyball program and a former coach of the soccer team, knowing she was involved in both is very special to her.

Ms. Noble has no firm plans on what she will be doing next year, but she is happy that she has been able to spend her last four years at MHS as the principal. She will be greatly missed by both the faculty and students. She has come to consider her colleagues as a family, together through both the tough and celebratory times. Each and every staff member and student have been able to benefit from her wonderful and fearless leadership.

Though no longer in the main office or the classroom, Ms. Noble has certainly made her mark on our lives!

Thanks for everything and best of luck with what is still to come!

## AND MR. RICHARD DESORGHES

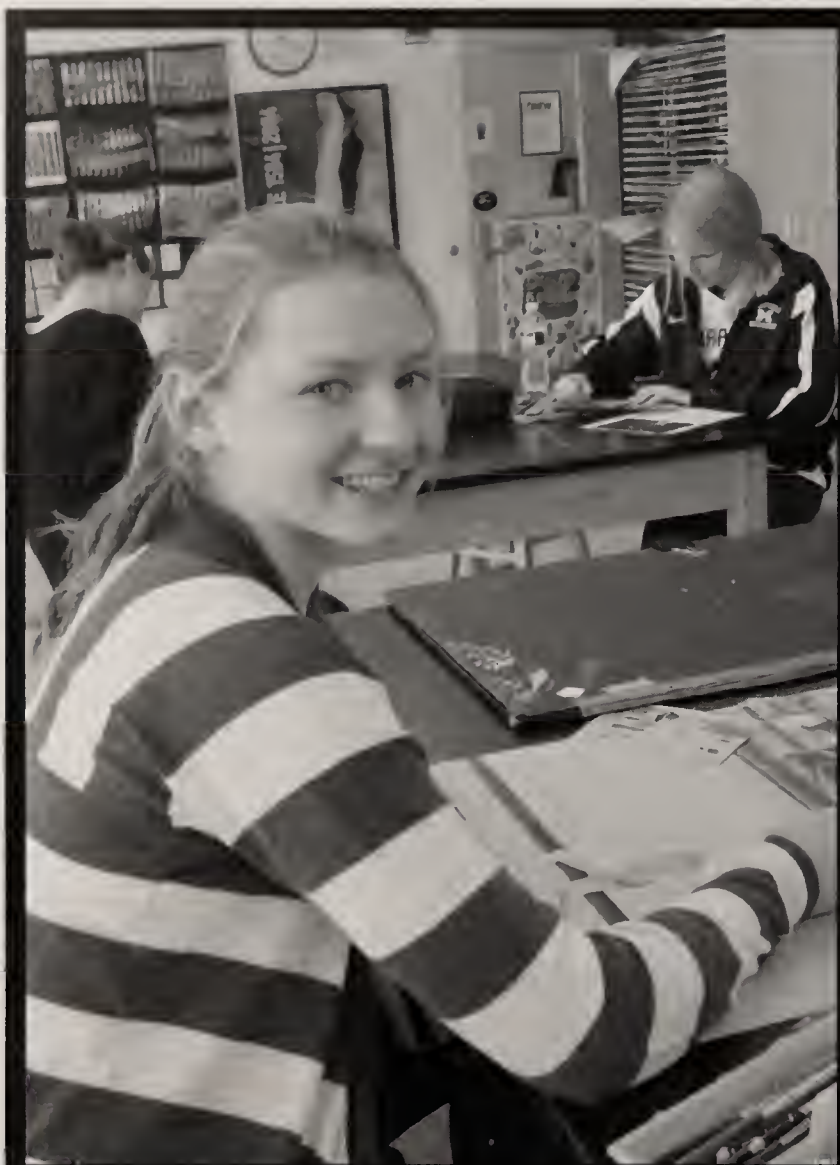

There is no doubt that Mr. Richard DeSorgher has made a lasting impression here at MHS. Mr. DeSorgher grew up in Medfield, raised his own children here, taught for 35 years in the school system, served as a town selectman, and is still the town historian. What hasn't he done? Well, not a whole lot.

Mr. DeSorgher began teaching in Medfield schools 35 years ago in the Junior High. After 18 years at the middle school, he moved to the high school to teach political science, a subject he has always been passionate about. Since then, Mr. DeSorgher has taught all levels of history, political science, and even some English classes. He has a great passion for United States history and teaches it in a way that all his students develop a passion for the material. Mr. DeSorgher established the AP US History class when he realized there was no such opportunity for students when his son was in school and demonstrated a fervor for the subject. His goal is for students to learn the material, and he believes that the best way to do so is to get students involved and "make history come alive." To do this, Mr. DeSorgher has led many field trips, including the 8th grade bike trip, ski trips, and the Washington trip...not to mention his involvement in local campaigns and politics.

Mr. DeSorgher is one of MHS's most beloved teachers because of his passion for teaching and his students. When asked what he is going to miss most about coming to MHS everyday, without hesitation he replied, "the students and teachers." Teaching at MHS is more than just a job for him, it has become part of him. He always jokes, "this is Camelot High." The attitudes and respect the students have here make this such a desirable place to teach at, and Mr. DeSorgher appreciates this great environment.

This may be Mr. DeSorgher's last year teaching here at MHS, but he will always be welcome. Thanks for everything!
